Carla Make a motion to call the meeting to order. Sherry 2nd it

Carla, make a motion to accept the minutes as they are and to suspend reading them.
Sherry 2nd it.

OLD BUSINESS:

Carla, no news on the White street unsafe structure. I don't expect I will for a while.

Carla: We don't really have any updates on the pickle ball court. Since Clark is not here, I know that they are thinking about the middle of June.

Carla, I had a couple complaints over the weekend about horse manure on the streets. I did not see this past incident that apparently. So, I don't know how long they were in town. but I know have been, you know, so we will have Scott talk to them. I don't know who it is. So, since Scott's not here, I will get Scott on that one.

Carla we finally got the poles in for the death signs So, we will get those up as soon as we can.

Diana will be out of the office this Wed and Thurs.

Carla, I don't have any other updates for old business. Update on the sewer plant that things are starting to come down to the wire. They are going to be sending Andy the like the last of the how it's going to look and stuff like that and go over that with him. We're supposed to find out funding probably would you say by the end of the month that kind of import you know so you know I don't know but we are getting closer because the last we heard we were on schedule to possibly break ground in September. So, everything I guess is continuing to go forward with that.

NEW BUSINESS

Michelle. I've already shown a couple of people's pictures. So, these are solar powered lights. They are temporary installs, but the more I thought about it, they were for the park sign and the fire department sign. I've got four. The more I thought about it, I'd like it if the town would allow us to install them. Town Pride will buy these.

I'd like permission to drill a little hole in in the spots where these would put a screw in just so somebody can't accidentally come by and smack them and knock them off. The other thing I thought about is by the time he gets on the sign that much of these sticks out.

So if the town approves those, we will put them up. We also have Bulky Trash coming up on June 13. And we always need volunteers. And so far, I've had I haven't had anybody message me or sign up. I have not, but I did talk with Tracy and Eric Burge. And just want to see what time he might be able to come up on one of those two days, but Tracy won't be ready. But transitions, they're not on Facebook at all. And I work Saturdays, which sucks because I work from 8 to 3. So, I usually come down and help after I get home, but that's 4:00. So, it's usually anytime you want to come up,

Carla, Connie, I would appreciate it. you know, because it's usually I got it up there and we have the and equipment ,Cody will come up and smash and he's up there for a while and Ernie usually comes over for a while and you know so there's people that are popping in and out and you know a lot of times we'll take advantage of somebody there and we'll disappear for a while. Christian Church is having Cones and coney's. on the same day. Which we didn't notice until we already scheduled our trash. So, it's not done on purpose.

That's all I've got.

Carla Okay. So, we need to vote on whether we will allow town to put those attached signs on or those lights onto the town park sign as well as the Fire Station sign. All in favor say yeah. So, I'm going to hand this off to you. All right. I didn't bring the town pride. It's \$19.94 plus tax. I have it. I'll text it to you. Okay.

Ernie would like to get an update on where we're at on the storm drain over in front of my house. Say Andy's taking care of all that. and he's taking care of it.

Yeah, I thought he was going to go with Chris Brown. He did. He Okay.

And something and it's plugged up. They can't get no There's two leaves that go into that drain. Both are plugged up. So, determine that. And then he had the public service come out and mark the where the electric lines go from the total up to the fire department and they've been marked. So, if they don't run into them, you know about this right there. I can only assume then at this point that Andy is going to continue to move forward as Chris is available, that is a political answer for you, I don't know.

But I'm glad they found something. Yeah, they did. It was plugged. Okay.

But it wasn't plugged where I thought it was plugged. So, it was plugged right in where they ran the fire trucks and stuff in and out. That little drive right there is probably crushed it down right there. That's where it's plugged.

The way that the fire trucks are happening, right? Oh, between the grass area like right at the end of the alley there is the alley where you go on to.

So, probably wasn't deep enough to allow for that driveway to be put in there and expected that be over, you know, it wasn't there a long time ago, right?

So, well, the pipes are older than dirt. Yeah. Yeah. And they're not very deep. Ernie would like. Welcome to Clark Hill signs as you turn down this way or that way or that way. We haven't had it since the Boy Scouts Oh, yeah. It's been a long time. It's been a long time. But he's talking about signs.

Carla Okay we will see what we can do.

Carla: Al Thomas's wife Dixie died Thursday. 28th. Lynn Reams died Friday 29th.

Does anybody have anything else?

Sherry will be not at our July meeting Okay.

And does anybody else have any new business or old business that needs to be discussed? You have anything?

Kathy: Just remember e-waste day is on Saturday at the fairgrounds. So, if you have any electronics or paper that you want shredded confidential information, you can go drive through at the fairgrounds and drop it off there for free.

Diana, somebody took a fence down to the burn pile. Carla, I will let Scott know. He can go check it out.

Oh, the flowerpots appear to be surviving. okay. Is the one there at the four ways right in front of that?

The veterinarian's office one has been cleaned. She told me she keeps getting called into work. So, I told her that we would have liked to plant by June 1st, but that didn't seem to.

All right. If we have nothing else? Hearing none.

Meeting adjourned.
